GLENDALE—
 The CITY of HOMES

VOL. XV GLENDALE, (LOS ANGELES POSTOFFICE), LOS ANGELES COUNTY, CAL., SATURDAY, JUNE 12, 1920 240

SCHOOL BOND VOTE

ELECTION FOR \$32,000 ISSUE
 CARRIES ALMOST UNANI-
 MOUSLY

While the vote was light at the election Friday for a supplementary school bond issue to provide additional funds for the completion of the building program adopted for city schools, its results were most gratifying as it showed public sentiment was practically unanimous in favor of the issue of \$32,000 additional bonds. The vote by precincts was as follows:

| | Yes. | No. |
|---------------|------|-----|
| Central Ave. | 52 | 0 |
| Wilson Ave. | 173 | 10 |
| Cerritos Ave. | 59 | 5 |
| | 284 | 15 |

The bonds will bear 6 per cent interest and will be exempt from taxation. It will probably be two or three months before the bonds will have been sold, bids have been advertised and secured, contracts let and actual work be begun on the addition to the Intermediate School, as there is considerable official red tape to be unwound in matters of this sort.

Members of the Board of Trustees of City Schools and Superintendent White are wearing broad smiles of satisfaction as they say this action will put the schools in good condition to meet the demands of a growing population.

LANDING FIELD

GLENDALE GUESTS FROM AIR
 MAY COME DOWN IN FRONT
 OF BRAND'S CASTLE

Through the courtesy of L. C. Brand, North Glendale, this city is provided with a landing place for aeroplanes that may visit us. Mr. Brand, on the eve of departing for his ranch on the borders of Mono Lake, to spend his summer vacation, informed City Manager Watson that the City of Glendale had his permission to announce and to advertise if so wished, that aeroplane visitors to the city would be welcomed and a free landing place provided for them. There are 15 acres in Mr. Brand's landing field, which is just south of his castellated residence at the foot of Verdugo Mountains. So if any Glendale citizen has a friend from the East or the Coast, for that matter, who is contemplating a visit to this city by aeroplane, he can assure the intending guest that he can land in perfect safety at the city's gates.

Mr. Brand has also placed his landing field at the service of the Angeles Forest Reserve Air Corps so that in making their regular patrols a quick landing to telegraph news of fires discovered in this vicinity can be made.

FUNERAL OF RUTH BREWSTER

Funeral services for Ruth Tyson Brewster, the little daughter of Mr. and Mrs. George Brewster, who died Friday morning, June 11, 1920, will be held this afternoon at 3 o'clock, at the Seaverns Parlors on Brand boulevard, interment taking place in Grand View Memorial Park.

PACIFIC AVE. P.-T. A.

EXCELLENT REPORTS SUBMIT-
 TED AT CLOSING MEETING
 HELD THURSDAY

The closing meeting of the Pacific Avenue Parent-Teacher Association was held at the school Thursday afternoon with Mrs. P. O. Lucas in the chair.

Chairmen of the various committees submitted their yearly reports which were most creditable and showed the association was very much alive. Mrs. Barton made a plea for support of the bonds to be voted for city schools Friday, Mrs. Hartley Shaw sang and Orpha Jean Shontz made an address on Juvenile Court work.

At the previous meeting officers had been elected as follows:

President, Mrs. P. O. Lucas.
 1st Vice-Pres., Mrs. W. E. Halstead.
 2d Vice-Pres., Mrs. A. S. Chase.
 3d Vice-Pres., Mrs. William Farlander.

Secretary, Mrs. Mae Rosenberg.
 Treasurer, Mrs. H. Moore.

Teachers of the school were hostesses of the day and served refreshments following the program. Victrola selections were enjoyed while tea was being dispensed. It was a large meeting and a very pleasant one.

BACCALAUREATE

GRADUATE NURSES OF SANI-
 TARIUM ADDRESSED BY EL-
 DER M. M. HARE

Beginning at 11 this morning the baccalaureate exercises for the graduating nurses of the Glendale Sanitarium and Hospital Training School were held in the Seventh-Day Adventist Church. To the strains of "Triumphant March," processional, the graduates, 17 in number, marched into the church building. An anthem, "The King of Love My Shepherd Is," was sung by the choir and the invocation delivered by Elder C. S. Prout. Then the trio from "Belsazzar," "Father Lead Me by the Hand," was sung by Mrs. Ernestine Wheatley, Miss Olive Adams and E. A. Macdonald, after which the baccalaureate address was delivered by Elder M. M. Hare. Hymn No. 475, "Saved to Serve," was then sung by the congregation and the benediction pronounced by Chaplain R. W. Munson.

Monday evening, commencing at 8 o'clock, the regular graduating exercises will be held in the church building, corner of Isabel and California avenue. This meeting is open to all.

"GUEST DAY"

WOMEN'S AUXILIARY OF CON-
 GREGATIONAL CHURCH EN-
 TERTAIN FRIENDS

Its annual "Guest Day" was observed Thursday by the Women's Auxiliary of the Congregational Church with a luncheon at the church at which covers were laid for about forty, each member being privileged to bring a guest.

Mrs. George Adams presided as toastmistress following the repast while the ladies remained seated around the tables which had been made attractive with flowers and dainty appointments. The toasts offered were:

"Our Guests," Mrs. E. D. Yarrick.
 "Those Who Have Passed On," Mrs. C. E. Hutchinson.
 "The Past," Mrs. E. H. Willisford.
 "The Present," Mrs. J. R. King.
 "The Future," Mrs. Blake Franklin.

A business session followed by a social hour concluded the afternoon's program.

SPANISH CLUB

DINNER, ELECTION OF OFFI-
 CERS AND FINE PROGRAM
 CLOSES YEAR'S WORK

Spanish students enrolled in the three classes in that language at Glendale High who for some time have maintained a Spanish Club, enjoyed a festive time and two course dinner in the school cafeteria Thursday evening from 5 to 7, where covers were laid for forty-six, the guest list including Miss Bessie Field, Miss Bessie Jones and Mrs. Wilson, instructors in Spanish.

Loys Griswold, who has served the club most efficiently as president during the past year, presided over the feast and received the congratulations of his friends over the successful year the organization has had.

On the program committee were Miss Charlotte Rominger, Miss Helen Ponton and Miss Louise Smart, the chairman of the refreshment committee being Miss Marie Oliver, who was assisted by Miss Ermadean Bowen and the 6-A.9 pupils. The tables were most attractive in their floral decoration of Shasta daisies, Matilija poppies, and ferns.

At the conclusion of the banquet officers for the coming year were elected as follows:

President, Charlotte Rominger.
 Vice-President, Walter Sullivan.
 Secretary-Treasurer, Gertrude DuBois.

The company then adjourned to the auditorium of the school where a very nice miscellaneous program was given by club members of which the main feature was the presentation of a three-act Spanish play in silhouette. Each act preceding its presentation on the screen was read. The program was also embellished with two violin solos by Faith Turling and two vocal solos by Helen Esterly, who sang "La Paloma" and "El Bolero" with ukelele accompaniment by Millicent Alvord and Billie Gregg. The club then united in singing "Me Gustan Todas" and the national hymn of Spain, and finished the evening with a general sing of popular songs of the day.

LOWDEN LEADS AT CHICAGO

REPUBLICAN CONVENTION TAKES RECESS WHEN DEAD-
 LOCK HOLDS AFTER EIGHTH BALLOT

(Special Service to Glendale Evening News)
 CHICAGO, June 12.—Four ballots at the Republican National Convention this morning failed to break the deadlock on the selection of a Republican presidential candidate.

The fifth ballot was taken when the convention opened shortly after 10 o'clock. It placed Lowden in the lead but there was little change in the general situation from the fourth ballot of yesterday.

Michigan, which was expected to bolt from Johnson this morning stayed with the Californian on the first ballot of the day. The sixth ballot registered small gains for both Wood and Lowden who tied for first place.

Johnson lost considerably, largely as a result of the Michigan delegation splitting, giving Johnson 18, Wood 11 and Lowden 1. The Michigan delegates on this ballot demanded an individual roll call of their delegation.

On the seventh ballot Johnson was driven from third place for the first time, his vote dropping below the 100 mark, and Harding, registering heavy gains largely from scattered supporters, took Johnson's place in the list. Harding seemed to have a big crowd of supporters in the gallery who cheered for him lustily.

There were scenes of great confusion on the convention floor and the balloting was slow. On several occasions state delegates demanded individual roll calls of their delegates and there were many hurried conferences and arguments. While the balloting was in progress delegates would slip from their seats into the sections occupied by other delegations and would hold whispered conferences and discussions. Once two members of the Pennsylvania delegation conferred in whispers with Senator Wadsworth, who is leading the New Yorkers.

There were many rumors that the break was due soon, but it did not come. At the close of the seventh ballot the suggestion to take a recess met with little favor, and after the eighth ballot the same suggestion was made.

After the eighth ballot there was considerable discussion and conference between leaders on the floor and then a motion to adjourn until 4 this afternoon was carried.

It is believed the leaders see in the present situation a comparatively hopeless deadlock and do not believe any progress toward selecting a candidate can be made until time for conferences is given.

The convention was late in coming to order this morning and delegates were noticeably restless. When Chairman Lodge first rapped for order he met with no response and after he had pounded the desk until his gavel flew out of his hands he called for a squad of sergeants at arms to secure order. It took them approximately five minutes to get the convention to settle down so that business could be proceeded with.

Balloting began immediately after the prayer by the chaplain and the four ballots in detail follow:

| | 5 | 6 | 7 | 8 |
|-------------|------|------|------|------|
| Lowden | 303 | 311½ | 311½ | 308 |
| Wood | 299 | 311½ | 312 | 299 |
| Johnson | 132½ | 110 | 99½ | 87 |
| Harding | 78 | 85 | 105 | 133½ |
| Sprule | 82½ | 77 | 76 | 75½ |
| Coolidge | 29 | 28 | 28 | 29 |
| La Follette | 24 | 24 | 24 | 24 |
| Poindexter | | 15 | 15 | 15 |
| Du Pont | | 4 | 3 | 3 |
| Hoover | 6 | 5 | 4 | 5 |
| Butler | | 4 | 2 | 2 |

DRIVE FOR SENATOR HARDING

SENATORIAL GROUP SAID TO HAVE STARTED ATTEMPT
 TO SEIZE CONVENTION FOR OHIOAN

(Special Service to Glendale Evening News)
 CHICAGO, June 12.—The Senatorial group in the Republican National Convention was reported today to have decided to attempt to seize control of the convention and win the presidential nomination for Senator Harding.

The alleged decision is said to have been reached shortly before dawn and was understood to have been influenced by the declaration of Senator Borah, spokesman for Hiram Johnson, that he would not support General Wood or Governor Lowden if nominated.

Attending the midnight conference were: Senators Lodge, Watson, Smoot, Curtis, McCormick, New, Wadsworth, Spencer and Calder. Senator Harding also spent some time in the meeting. Senator Johnson did not attend but he may have been in touch by telephone.

New, Smoot and Watson are directing the alleged drive for Harding. Their efforts are directed chiefly against the Lowden contingent.

WOMEN AT CONVENTION

(Special Service to Glendale Evening News)
 CHICAGO, June 12.—On the floor of the convention are 26 women delegates and 136 delegates at large who are receiving respectful attention. They are not asking to run the convention nor for positions of great responsibility but are winning respect by their modest behavior and appearance. All the women, however, are well gownned and they are said to be getting onto the political game in great shape and to be growing in popularity with their political associates of the opposite sex.

CHAMPIONSHIP WON

GLENDALE TAKES DECIDING
 GAME FROM CITRUS,
 10 TO 1

The last regular game of the baseball season was played yesterday at Monrovia between Glendale High and Citrus Union High, to decide the championship of the Central district, the two teams being tied for first place. Not a very large crowd accompanied the team to Monrovia, but there must have been some extra stimulating power in their yells to bring so decided a victory to the home team. The game started off in big league style, each team making a run in the second inning and drawing blanks until the 6th, when something broke loose and Glendale began to pile up the runs. The first two men up in that fatal inning struck out and the next two took first on errors. Then four singles in succession by McNary, Herman, McGillis and Paul Jenkins scored five runs, the entire team coming to bat during the inning. In the seventh, McDonnell was again first man to bat, but instead of striking out, as in the previous inning, he lined out a home run. Fred Jenkins was hit by pitcher and went to first, Wilde flied out, Cummins hit for three bases, McNary struck out and then Herman hit for a homer. McGillis went out on a fly and the inning was ended. Citrus was unable to score after the second, so in the eighth both teams agreed to quit, with the score standing 10 to 1. Herman easily carried off the batting honors with a single, a triple and a home run.

| | The Score |
|------------------|--------------------------|
| Glendale | 10 2 3 4 5 6 7 8 |
| Citrus | 0 1 0 0 0 0 0 0 |
| Struck out— | By Jenkins 5, Wilhite 6. |
| Base hits— | Glendale 9, Citrus 2. |
| Three-base hits— | Cummins, Herman, Fleet. |
| Home runs— | Herman, McDonnell. |
| Umpire, | Goodman. |

BOWLING CONTEST

TEAM OF GLENDALE ELKS DE-
 FEATS CRACK TEAM OF
 SANTA MONICA

Friday evening a most interesting contest was staged in the alleys of the Glendale Elks' Lodge when Bowling Team No. 1 of the Santa Monica Lodge met the team of the local lodge and was defeated in three games. The tournament was witnessed by about 150 interested spectators, a large delegation being present from Santa Monica to encourage the players from that city, and Captain Wattles being on hand with his drill team to root for Glendale champions.

Following the victory a lunch over which Captain Fortunato presided was served to all guests followed by dancing. The score in detail follows:

| | Glendale | Ttl. Avg. |
|-----------|-------------|-----------|
| Apffel | 161 200 194 | 555 185 |
| Fortunato | 180 154 198 | 532 177 |
| Christy | 179 207 182 | 568 190 |
| Caswell | 152 182 | 334 167 |
| Ward | 172 | 172 172 |
| Hearnshaw | 182 206 167 | 555 185 |

Totals874 919 923 2716
 Team average, 181 1-5.

| | Santa Monica No. 1 | Ttl. Avg. |
|----------|--------------------|-----------|
| Ames | 151 174 189 | 514 171 |
| Mitchell | 127 167 191 | 485 162 |
| Stephens | 159 168 155 | 482 161 |
| Hoyt | 202 178 177 | 557 176 |
| Shaffer | 180 141 201 | 522 174 |

Totals819 834 913 2650
 Team average, 170 10-15.

CLASS PARTY

IN CELEBRATION OF DAUGH-
 TER'S BIRTHDAY MRS. A. S.
 CHASE OPENS HER HOME

In honor of the thirteenth birthday of her daughter Cecil, Mrs. A. S. Chase opened her home to the members of the A. S. 1 class of the Intermediate School and a number of friends of students in the class.

Miss Midcalf and Miss Jackson had charge of the games which proved to be immensely exciting and amusing. Miss Sharpe and Mr. Price also added to the pleasure of the young people who numbered about sixty.

Refreshments of ice cream and delicious cake were furnished by mothers of the children and Mrs. Chase was assisted in serving by Mesdames Frazee, Betz, Buchanan, Allen and Chandler.

FLAG DAY

PUBLIC INVITED TO PARTICI-
 PATE IN PATRIOTIC PRO-
 GRAM AT ELKS' LODGE

All Glendale and especially members of patriotic orders, have been invited to participate in a program to be given by the local Elks' Lodge in observance of Flag Day, which is one of the most important days in the calendar of the organization and which falls upon Monday, June 14th. It will take place in the lodge hall at 8 p. m. and Hon. Lewis R. Woods, Judge of the Superior Court, will make the address of the evening.

The opportunity to witness the beautiful and impressive ritualistic service which the Order provides for this occasion and which will be put on by officers of the lodge should be appreciated and insure a large attendance. Special invitations have been extended to the N. P. Banks Post and the organizations affiliated with it, including Women's Relief Corps, Sons of Veterans and Daughters of Veterans, and to the Glendale Post of the American Legion and the Women's Auxiliary affiliated with it, also to all "Daughters of the American Revolution" and "Sons of the American Revolution."

The committee having the program in charge states that no formal acceptance of this very general invitation is necessary but all patriots are asked to respond by presenting themselves with their wives and families at the Lodge Hall Monday night to honor the flag of their country.

NEW REAL ESTATE FIRM

C. A. Lessard, well-known builder of Glendale, and his two sons, Clarence A. Lessard, Jr., and E. Homer Lessard have opened real estate and insurance offices at 616 E. Broadway opposite the City Hall.

"We are going to do our bit toward building up this beautiful city of homes for we are strong believers in the future of Glendale," said Mr. Lessard, Jr.

SAFE VOYAGE

MRS. W. F. ALTHOUSE JOINS
 HER HUSBAND IN HONOLULU
 SINCE LAST JANUARY

Mrs. W. F. Althouse of North Isabel street, who left here several weeks ago, reached Honolulu safely after a very pleasant voyage, according to letters from her received by her mother, Mrs. Jordan, who is caring for her grandchildren, Jane and Billie Althouse, in the absence of their mother. Mrs. Althouse went to join her husband who has been in Honolulu since last January and will remain until he is able to return with her.

Mrs. Jordan has had the pleasure of entertaining this week her niece, Miss Helen Ward, who is a teacher in the Salinas High School. Miss Ward left with Mrs. Jordan the plans of the beautiful \$400,000 high school which Salinas is erecting on a 20-acre campus. It is expected that one unit of the building will be ready for use in the fall.

MUSICALE

LOS ANGELES AND GLENDALE
 GUESTS ENTERTAINED AT
 HINKLE HOME

About forty-five guests from Los Angeles, Glendale and Eagle Rock were delightfully entertained Thursday evening by Mrs. Hinkle and her daughters, Misses Bertha and Alice, with a musicale at which Ella A. Saggioli of Los Angeles, a gifted tenor, was heard in Italian, French and English songs with Mr. Vance, of Los Angeles, at the piano. Solo numbers on the piano were contributed by Miss Bertha Hinkle, who is an accomplished musician and who has done considerable concert work. The house was beautifully decorated with flowers for the occasion and refreshments were served. Glendale was represented in the guest list by Mr. and Mrs. Stephen Packer and daughter Doris, Mr. and Mrs. Rogers, Mr. and Mrs. Gilbert, Mr. and Mrs. Merrill Russell, Mr. and Mrs. Armstrong, Mr. and Mrs. E. B. Van Alstine, Miss Patterson, Mr. and Mrs. George Lyons, Mr. and Mrs. H. D. Thaxter and daughter Agnes, Dr. and Mrs. O. P. Lucas, Mr. and Mrs. William Farlander, Mr. and Mrs. J. J. Fraser, Miss McGinnis, Mr. and Mrs. A. S. Chase and Miss Scott. The Hinkles live at 326 Riverdale Drive and have been residents of Glendale since last October.

HONOR FOR FORD

CERTIFICATE OF MERIT FROM WAR DEPT. FOR WORK ON LIBERTY MOTORS

A certificate of merit, together with a citation by the director of air services, war department, has just been received by the Ford Motor Car Company, Detroit. The letter announces that the "chief of ordnance also made a similar recommendation and citation." It read: "This company produced 3950 Liberty—twelve motors of unusually good quality. They also produced all cylinder forgings used by plants in the manufac-

ture of Liberty motors, and they invented and developed special machinery and processes for this purpose. This plant was 100 per cent on war work."

Besides the cylinder forgings, the Ford company perfected and manufactured all the cylinders and all the bearings used in American-made Liberty motors.

All war work handled by Henry Ford for the United States government was done at actual cost.

A Norwegian experimenter has perfected a new combined electrolytic and evaporation process for obtaining salt from sea-water and the government will foster the establishment of plants in that country.

NEW MOTOR FUEL

BENZOL HAS HIGHER COMBUSTIVE POWER; IS BY-PRODUCT OF COKE

Five thousand gallons of benzol, a by-product of coke used for motor fuel, is now being daily extracted and refined at the Ford Motor Company's Blast Furnace Coke Ovens near Detroit, Michigan. This fuel, which is more highly combustible than gasoline, is now being sold at the public station at the above named plant, and has proven highly satisfactory. The price at present is about the same as that of gasoline.

While the Ford Motor Company is not the first to discover or use this fuel for motor cars, still the public station is the first ever opened to sell benzol, exclusively for motor car consumption. This filling station carries a supply of 25,000 gallons of benzol on hand all the time. To date some 300,000 gallons have been sold and used by car and truck drivers in Detroit. Particularly during the recent strike there was an exceptionally large demand for this product.

Benzol has not as yet reached the highest stage of refinement, and present results are best when it is mixed in equal portions with gasoline. Heat and cold also affect differently from gasoline. But the Ford chemical laboratory is doing a great deal of experimenting and soon hopes to be able to refine it so that it can be used alone and under all conditions. Of course, its chief effectiveness comes from its high combustive power which is between twelve and fifteen per cent greater than gasoline.

Ford officials state there is no possibility of benzol ever displacing gasoline as a motor fuel, since it is a by-product of coke and therefore obtainable only in limited quantities.

THE HIGHWAY SITUATION

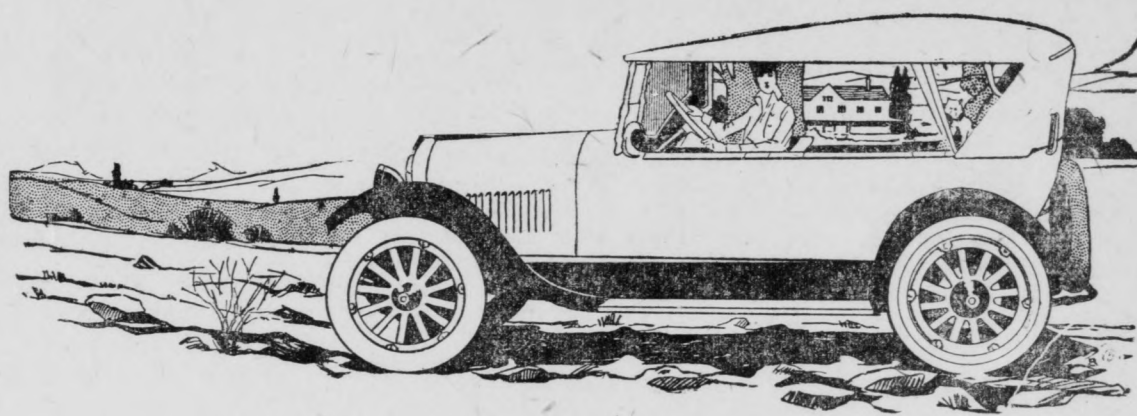

Advices from Sacramento, and the general trend of editorial and public comment everywhere, point unerringly to the earliest possible cessation of highway construction in California until conditions take a change for the better. That this was inevitable was foreshadowed in the overwhelming evidence received from other States of the Union, where such a decision had already been reached and acted upon.

The Automobile Club of Southern California and the California State Automobile Association in urging postponement of road building at present, did so with the full knowledge that there was not a single county in the state which was not threatened with a serious loss of mileage if the highway construction was continued with. If every county in California met and decided to go on with roadbuilding at present, each county to get the roads it voted for and was promised, no more futile or impotent action could be taken. It is admitted by the Highway Commission that the money will not build, at present, more than from one-half to five-eighths of the roads the counties are entitled to. This admission, in itself, is an unappealable verdict against any further construction excepting the trunk line connections, contracts already signed for, and maintenance work to keep present roads in condition.

But there is another very serious and important fact to be taken into consideration by the people of the state in connection with the delaying of highway work. That is, the over-head expense of the State Highway Commission. As was tersely stated in a recent editorial in a Southern California newspaper, "But overhead work made necessary by great plans being worked out should be at once done away with." That is the case in a nut-shell. Just as it was imperative that highway work should be postponed, so is it vitally necessary that State Highway Commission forces should be reduced. California has no money to pay men for "marking time." A public office is still a public trust. If a manufactory, whether of roads or rifles, shuts down for a year, it does not keep its full force on the pay-rolls. That would not be business, that would not be common-sense. The county cannot afford to pay out in salaries and wages the money it voted to build highways with. There is plenty of work for men to do in Southern California. Men who are doing either manual or office work, inside or outside detail work, can find employment elsewhere in other lines. The Bureaus of Labor and of Employment are constantly seeking for men in many branches of service.

The Automobile Associations have no axe to grind, no private interest to further, no friends to reward and no enemies to punish. They have laid the evidence and the situation

The TULSA

"Conqueror of the World's Worst Roads"

Beauty and Durability Combined

In designing and building the new Tulsa, nothing has been overlooked that would add to the beauty, strength, comfort and convenience of this remarkable car. Every unit is standard. Every little detail is in keeping with the latest trend of motor car fashions—refinements and specifications such as are found in the most expensive cars.

squarely before the people of the State. They have asked that the two trunk-line connections be finished, maintenance work on present roads kept up, and contracts already signed be completed. Further than that they have put themselves on record as opposing, and public opinion is rallying steadily to their support.

As a necessary corollary to such a postponement as is planned, the curtailment of over-head expense in the State Highway Commission follows as a matter of course. The state has no choice. When highway construction work stops, highway commission work stops very perceptibly in practically every branch. When work stops, salaries and wages should stop. The proposal to

increase interest rates in order to carry on work does not change, in the slightest degree, the position taken by the Automobile Associations, nor does it cheapen, by one penny, the cost of labor or the price of materials. Nor does it relieve in any manner the farm labor or railway car shortage. It merely adds to exorbitant figures for highway construction the burden of an increased interest for the people to provide for, and affords another example of injudicious finance along the lines of "robbing Peter to pay Paul;" and the counties would have to increase their tax levies to meet the bills.

Close down the work for the present, and cut down expenses for over-head outlay in the meantime. That is the demand voiced by the Auto-

mobile Associations, with the certainty that in taking this stand they are backed up by the principles of economy and prudence, and are keeping in constant view the best interests and welfare of each and every county in the State of California.

The stores on South San Fernando Road are said to be gradually filling up and restoring an appearance of life to that once active business center. Mr. Eleyki, a manufacturing chemist, has this week opened for business the store he rented from Mr. and Mrs. Rifenberick, where he will extract the essential oils, etc., from citrus fruit to be used in the manufacture of jellies.

FEDERAL POLICY IN HIGHWAY CONSTRUCTION

In response to a wire sent to Secretary Meredith of the Federal Department of Agriculture, inquiring as to the Government's present policy regarding highway construction, the Automobile Club of Southern California have just received the following telegram:

"Washington, D. C., June 6, 1920.
Auto Club of Southern Calif.
Los Angeles, Calif.

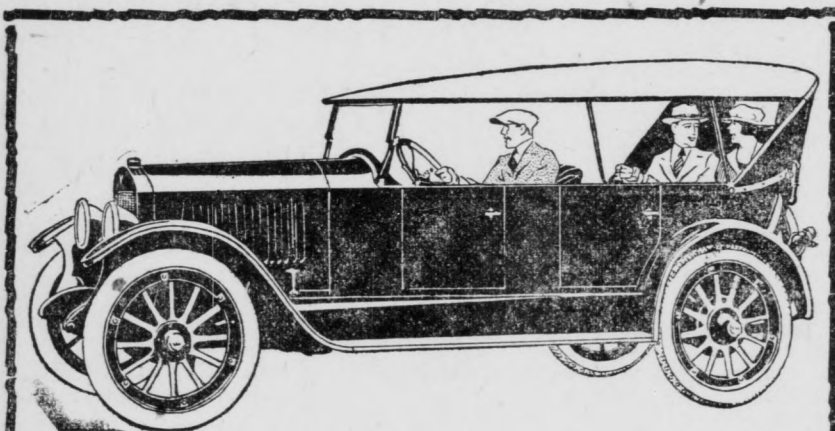

"It has been the policy of this department since the first of April to discourage the awarding of new contracts generally, and many of the larger states have adopted a definite policy of awarding no more contracts. There probably is a considerable amount of local work under direction of local road officials which may be curtailed in the same manner as the State and National program has already been curtailed, or there may be localities in which the state or local officials would be justified in stopping road construction. Such cases should be considered on their merits, and such action taken as the good judgment of the road officials in immediate charge of the work indicates is desirable from the public standpoint. I find that the highway departments

generally are curtailing their road work to the most essential projects, particularly those which will complete contracts which have been pending for some time. Immediately following the signing of the armistice, the states were encouraged to begin road work on an extended scale in order to absorb any surplus labor, and to assist in the resumption of normal business activities many of the contracts which were let at that time are still uncompleted. During the past season there were a number of critical periods when road material was not moved, resulting in much delay and consequent loss. The Federal aid program which is now under way and uncompleted is only one-third of the program for which such projects have been approved.

"C. F. MARVIN,
Acting Secretary."

Taking up this communication sentence by sentence, it will be found to support absolutely the stand taken by the Automobile Club of Southern California and the California State Automobile Association as to further highway building in this state.

THE UNIVERSAL CAR

Insist On Genuine Ford Parts

Imitation "Ford" parts are being sold by many mail-order houses, downtown stores and garages to unsuspecting Ford owners as "Ford" parts. But they are not Genuine Ford parts made by the Ford Motor Company. They are made by concerns who have no connection whatsoever with the Ford Motor Company. These imitation parts are not even made from the same grade of steel, or under the same formulas used by the Ford Company. They are counterfeit parts. Tests have shown them to break when the genuine Ford parts didn't even bend, and they are from thirty-five to one hundred per cent lower in quality.

The Authorized Ford Dealers are your protection. As such, we handle nothing but the Genuine Ford parts. They are made from the famous Ford Vanadium Steel and each part—according to its use—is heat-treated in the way that will give it the longest wearing qualities. Every part is the same as its original in your Ford car or Ford truck.

Our stock of parts is complete. And our Ford garages and Ford mechanics are at your service at all times. Drive in to any of the following when replacements or repairs for your Ford car may be necessary. Save your car and also your money.

HUDSON SUPER-SIX IN CROSS- COUNTRY DRIVE

L. J. Casbon of 1917 Gardena avenue completed a cross-country trip from South Bend, Ind., arriving in Glendale June 8th. Mr. Casbon bought the property at the above address upon his arrival and intends to make his home here permanently. Mr. Casbon drove a Hudson Super-Six Speedster on his trip out to the coast which he bought last January from the Hudson dealers in South Bend, and a few days after his arrival in Glendale he stopped in to see Messrs. Chambers and Felts, local dealers for the Hudson and Essex, to tell them about his trip and to congratulate them on being the dealers for these cars. In speaking of his trip Mr. Casbon said: "I left South Bend on May 24th with three passengers beside myself and a full camping outfit and arrived in Glendale June 8th. I covered 2896 miles, averaging 222 miles per day, and only used two quarts of water in the radiator on the whole trip. I had the misfortune of losing my right arm some time ago, so I am obliged to shift gears and do all the other operations necessary in driving a motor car where the hands are used with only one arm which is no easy task when driving through mountains and over the bad roads of the desert. The Hudson would have been broken a thousand times if it was possible to break it. I have driven and owned nine cars besides my Hudson but not one of them had the power, speed and endurance that is characteristic of the Hudson.

Tandem axle construction on a new heavy motor truck allows the use of four small tires on the back of the machine instead of two large ones and lessens the weight to be lifted when a tire is to be changed.

To replace the aprons used by barbers an Australian has invented a cone shaped device to be placed around the shoulders of a person whose hair is being cut, the hair falling down it into a circular trough.

THE SOLUTION

of battery troubles.

Equip your
car with an

"Exide" Battery

backed by

"Exide" Service

THE BATTERY

that costs the most to make
and the least to use.

50 per cent of all engine trouble is caused by defective battery. When you equip your car with an "Exide" you are backing up your starting and lighting system with a battery that is the outcome of thirty-one years of specialization. And when you register your battery with us for regular inspection you are lengthening the life of your battery.

DON'T BLAME ENVIRONMENT

Laying the blame on environment offers an excuse but not a reason for failure. Environment may handicap your start and hinder your progress, but it's not the final arbiter of your destiny. Some of life's greatest failures have been the fortune-coddled youths who have been pampered by having everything they wanted. In striking contrast many of history's conspicuous favorites have risen from obscurity and poverty. After all it's not what a man starts with, but what prompts him to start and keeps him going that counts. When the mental attitude is right no power on earth can curb it. Circumstances may hinder the body from achieving its goal, but the spirit is still triumphant even in bonds. What binds material ruled things only offers challenge to spirit ruled lives. As long as "truth crushed to earth shall rise again" furnishes incentive to conviction urged souls, men headed right will triumph.—Exchange.

"An artist is supposed to have a fine disregard for money." "And they live up to that tradition. I've known many of them to let a \$5,000 picture go for ten plunks."—Louisville Courier-Journal.

ANNOUNCEMENTS

SCHAFFERS
CLEANERS AND DYERS
"The Cleaners and Dyers of Today"
We beg to announce to the people of Glendale and surrounding territory that we have opened a first class cleaning, dyeing and pressing establishment. Years of experience enables us to guarantee nothing but first class work on all kinds of men's and women's wearing apparel. Our prices will be moderate, consistent with high grade work. Work will be called for and delivered and our service will be prompt.
A trial is all we ask. WE THANK YOU.

Mr. and Mrs. John Addison planned to motor to Redlands today.

Fred G. Farner is having M. Siple remodel his house at 223 North Adams, and John Coleman has employed O. G. Thompson to do likewise in his residence property at 419 East Colorado.

Miss Bess Moore of 140 South Jackson street will leave Tuesday for her home in New London, Iowa, where she will spend the summer. She will return in the early fall to take up her duties as a nurse.

E. Wolber, one of the meter readers for the Public Service Department, has employed Contractor T. H. Addison to build for him a garage to be used as a temporary residence, on his lot at 626 North Kenwood. The permit is for \$500.

Personals

J. R. Lockwood and son, Bruce, of 1011 North Louise street are leaving today for Catalina where they will spend a week or ten days.

Prof. and Mrs. W. T. McQuarrie of 522 Raleigh street and family expect to leave next week for Hermosa Beach, where they will spend the summer.

Mrs. Franklin M. Head and children are expected Monday from Ardmore, Oklahoma, and will spend the summer in Glendale with Mrs. Head's parents, Mr. and Mrs. J. H. Franklin.

Miss Elizabeth Russell, daughter of W. K. Russell of Granada street, has just returned from Compton, where she has been teaching, and where her mother was her guest last week. Miss Russell expects to go to Berkeley in a short time.

Mr. and Mrs. V. M. Tresslar and son of 320 West Lexington motored Friday evening to Balboa to occupy their island cottage for the week-end. They were accompanied by Mr. and Mrs. R. L. McCourt and family who also have a cottage on the island.

Tom Smith, of the Ford Agency, a comparatively new comer and brother of Jesse Smith, has just welcomed his wife and family who arrived Friday, from Toledo, Ohio. Mr. Smith had secured a house for them and the united family is now established at 1137 San Rafael street.

Mrs. Charles Wallace Kimberly, who sold her home on South San Fernando Road several months ago and went to Los Angeles to live, has returned to this city and taken a house at 228 North Orange street. A cousin and her husband from St. Louis are with her as guests.

Mr. and Mrs. Shimelfeng of 328 West Lexington Drive, who are comparatively new comers from the Keystone State, have just welcomed Mrs. Shimelfeng's sister and brother-in-law who arrived by auto from Pennsylvania and who are likely to locate here. The Shimelfengs bought the Pitner place.

Mrs. Robert Blackburn, who left here with her father several weeks ago to join her husband in Coachella, was obliged to return to Los Angeles with Mr. Royce, who could not stand the climate. They are with relatives in Los Angeles and when her father is better it is possible Mrs. Blackburn will return to Glendale and resume her welfare work.

Architect Arthur G. Lindley has completed plans for the new Methodist Church at Burbank and bids are being taken for the construction, the estimated cost of which is around \$35,000. It is to be of frame construction with main and Sunday School auditoriums having a seating capacity of 500; graded class rooms, banquet room, kitchen, social rooms and offices.

Mrs. E. D. Yard of North Maryland avenue had the pleasure of entertaining Thursday afternoon and as a dinner guest an old friend, Miss Nettie Britton, who was one of her schoolmates when she was a girl in Massachusetts. Miss Britton has just returned from Honolulu where she had some wonderful experiences. She enjoyed her stay there, but says she would not care to live in the island.

Architect A. F. Priest has prepared plans for a 6-room country residence near Fillmore, Ventura Co., for J. H. Sharp. It is to be constructed of concrete blocks and have plastered exterior. Mr. Priest has also in hand the preparation of plans for a two-story, 11-room residence at Somis for B. Vanoni. It is to have concrete basement, hollow tile walls and plastered exterior. There will be two bath rooms.

John W. Railsback and family, who left Glendale in April, 1919, to seek a home in Northern California, are back in Glendale to stay, satisfied that this is the best place to live, after all. They are at 461 W. Windsor Road. John is bracing on the S. P. between Calexico and Niland and is supposed to get home for a visit every other Sunday, but is frequently pressed into service for extra runs on these occasions, so seldom has a day with his family.

J. H. Franklin of North Central avenue returned Wednesday evening from Fullerton, where he was the guest of Charles C. Chapman who has one of the largest and most famous orange orchards in this part of the state, and also oil properties which have made him a very wealthy man. He has recently given away \$400,000 for educational purposes. Mr. Franklin describes him as a fine, all around man, and says he had an exceedingly pleasant visit.

Mr. and Mrs. Royal C. Markland, who purchased from Mrs. Charles Wallace Kimberly her home at 1645 South San Fernando Road, are having the pleasure of entertaining a friend, Mrs. Dannet, from Lowmoor, Iowa, who arrived about a week ago and will be with them for about a month. Their daughter, Miss Erma Markland, has also arrived from Davenport, Iowa, where she has been attending St. Catherine's School. She will be at home this summer and will continue her studies next fall in California.

The Provident

LIFE & TRUST COMPANY OF PHILADELPHIA, PA.

For 55 years celebrated for:

Lowest mortality of all large companies.

Low rates and very low net cost.

Splendid Quaker management.

Participating policies only.

Guaranteed values the second year.

Added security in Trust Department.

Leading company in Endowment Insurance.

Unparalleled record for liberality toward soldiers and sailors in the great war.

W. B. KIRK

For Eight Years Provident Agent in Glendale and Los Angeles

MRS. TIGHT'S MAY SALES

Mrs. M. L. Tight of 612 East Broadway reports the sale of over \$50,000 worth of property for the month of May. Sales were as follows:

The modern bungalow of Mrs. C. M. Budway at 312 East Dryden to Miss Sarah Levy of Oklahoma.

The two-acre chicken ranch of N. H. Pardon of 1108 Oakwood avenue to Mr. and Mrs. J. F. Cullen of 606 North Maryland.

The property at 113 and 115 S. Cedar for Mrs. Ray Sherman to Mr. and Mrs. William McCurdy of Salt Lake City, who will occupy one house and rent the other.

The highly improved acre with a seven-room modern home at 610 S. Verdugo Road for J. H. Searles to Mr. and Mrs. Tracy of Colorado Springs, Colorado.

The beautiful home of Mrs. L. V. Taylor and her sister, Mrs. E. M. Lord, at 911 Randolph to W. E. Hewitt of our Glendale Laundry. Mr. Hewitt and his mother will occupy their new home as soon as Mrs. Hewitt's furniture arrives from Chicago. He is planning quite extensive improvements to the now almost perfect home.

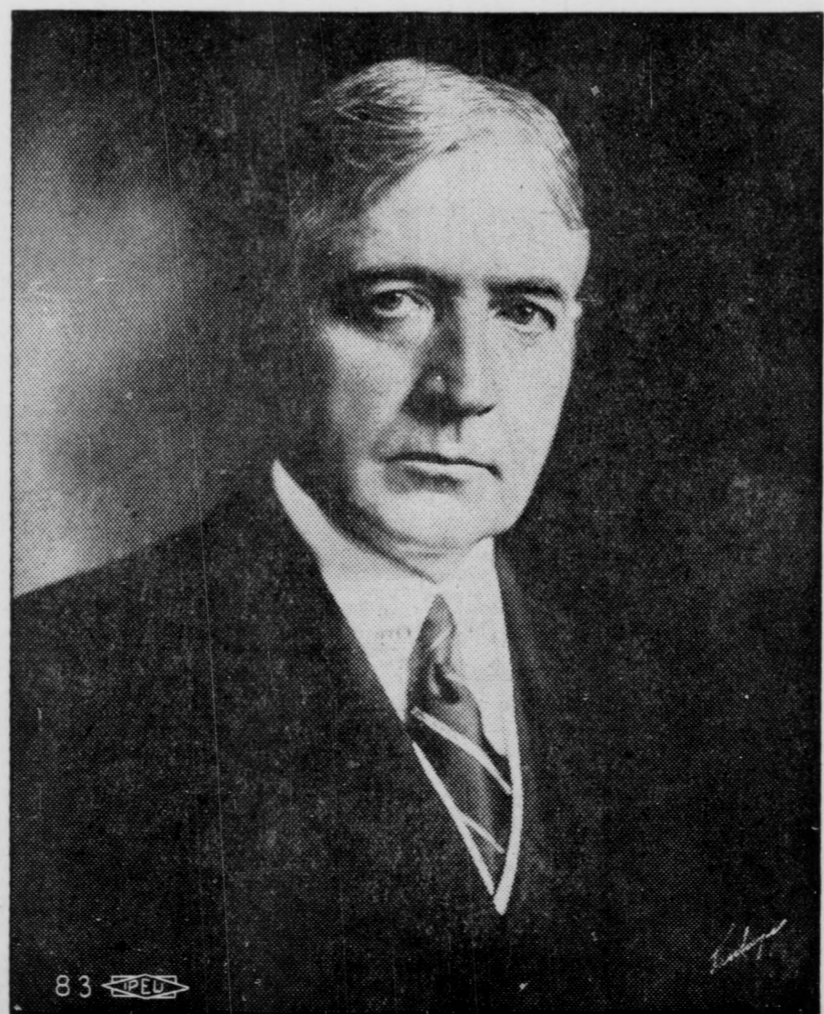

Sold the beautiful six-acre ranch of G. A. Rapp of Northwest of the city to O. D. Kull of Michigan City, Indiana. Mr. Kull had decided not to buy under a year after his arrival in Southern California but upon seeing Mr. Kull's ranch, bought the next day.

The modern 6-room home of Mr. and Mrs. J. F. Cullen of 606 North Maryland to N. H. Pardon of 1108 Oakwood avenue, Glendale.

GETTING PROFICIENT

"William," cried the astonished lady, "what on earth are you doing standing before the mirror making those dreadful faces?" "Well, my dear," replied her husband, "I am to receive a presentation at our club meeting tonight, and as I am not supposed to know anything about it, I'm practicing a look of intense surprise."

Mrs. Roth of 115 West Broadway is joining Los Angeles friends in an automobile trip to San Diego where the party will spend a week at the Tent City.

GOV. FRANK O. LOWDEN LEADS IN THE REPUBLICAN CONVENTION ON THE EIGHTH BALLOT

PLEASANT OUTING

MONTGOMERY'S RETURN FROM SHOEMEN'S CONVENTION AT SAN DIEGO

Mr. and Mrs. A. H. Montgomery of 415 South Central avenue returned Friday evening from San Diego, where a big convention of shoe salesmen has been in session this week at Hotel Coronado where there were more than 200 booths erected to display the different lines of goods.

The city of San Diego and the Association so combined to provide a continuous program of entertainment for the delegates and their wives. Tuesday evening a big program was presented to which Mrs. Montgomery was asked to contribute readings all the other talent being drawn from the theaters of San Diego. The fact that she more than held her own in this company of professionals is considered quite a card for Glendale's townswoman.

Wednesday evening there was a fashion show with living models beautifully gowned from the San Diego stores wearing the latest fads in foot covering. While this most interesting display was in progress Chester Herald, the well-known tenor and member of the Bohemian Club of San Francisco, entertained with songs.

Thursday afternoon the ladies were given a boat ride, and Thursday night the convention ended with a big banquet and dance, which was an elaborate and beautiful affair. At the conclusion of the feast the dishes were cleared away and little pupils of a fashionable dancing school ranging in age from five to twelve years mounted the tables and executed fancy dances to the delight of the guests who filled their short socks with coin as a practical evidence of appreciation.

THE AMERICAN LEGION WARNING

Recently impostors have been discovered soliciting funds from the residents of Glendale, under the alleged plea of aiding the campaign for securing a bonus for ex-service men and claiming to have the endorsement of the American Legion.

The people of Glendale are hereby notified that the Glendale Post does not endorse indiscriminate soliciting of money for any purpose whatsoever. Should it become necessary or deemed expedient to ask for individual subscriptions at any time in the future, any person or persons authorized to solicit will be furnished with a certificate so stating signed by the proper officers of the organization and under the official seal of the Post.

D. W. NICOLAS, Chairman.
JAS. F. M'BRYDE, Secretary.

The First Annual Outing of Glendale Post, No. 127, will be held the latter part of the present month. All neighboring Posts and Ladies' Auxiliaries will be invited to unite with us in this day of play. Watch for future definite announcement.

A large number of new members were added to the Post as the result of the drive. The Legion is the natural home of every eligible ex-service man. Don't stay away from home.

Willie had been wearing underwear that was too small for him. As he was growing rapidly his mother bought garments over-sized, expecting him to fill them before they wore out. Willie, when put inside the newly-purchased underwear, shrugged his shoulders and, seemingly discontented with his lot, remarked: "Ma, I fell awfully lonesome in this shirt."

Advertising Our Laundry

Forty Glendale people employed in the Glendale Laundry are a pretty good advertisement for the laundry. Our best advertisement, however, is the work we do. The news that we use every care in handling clothing and return the bundles promptly in good condition, travels fast. We have plenty of walking advertisements in Glendale.

Can't We Make You One?

CHIROPRACTIC

LATEST SCIENTIFIC RESEARCHES SHOW THE TRUE CAUSE OF DISEASE

In his treatise, "The Spine in Health and Disease," Dr. J. F. Macomber says: "For six years, Dr. McConnell, of Chicago, and his colleagues have been experimenting upon animals in order to determine scientifically whether disease will occur in distant organs after vertebrae have been slightly displaced. Microscopic examination of specimens taken from the organs of the animals prove this conclusively. Changes in the stomach, kidney, pancreas and practically all the organs in the body was marked. In two animals a goitre was produced."

This proves that Chiropractic is the science dealing with the cause of disease and how to eliminate it.

Are YOU AWARE that the Chiropractor is the only one who understands these principles and knows how to correct such conditions?

RIISING IMMIGRATION TIDE

Two weeks ago more than 12,000 immigrants were admitted at the port of New York. Considering that entries from the late enemy countries are barred, passports are required and a literacy test is enforced, the number coming in is astonishing. Ever since the war started nearly six years ago the number of immigrants applying for admission has been negligible. That the tide has turned would seem to be indicated.

The effect the close of war would have on migration has been a moot question. Some assumed that there would be such eagerness to get away from devastated and tax-ridden Europe that we were likely to be inundated by the inflow of immigrants, did we permit them to come in unlimited numbers. There was a reverse view to the effect that labor would be in such demand in Europe that there would be no incentive to emigrate. It is too early to gauge the correctness of either opinion but recent arrivals give color to the belief that America has not yet ceased to be the land of opportunity sought by great numbers of Europeans.

Not a few married couples face no seven-days a week break-fast strain by arising at different hours.

If he were not a candidate for the presidential nomination how would we ever learn that we have an attorney general?

GOODYEAR TRUCK

ON FOURTH TRANSCONTINENTAL TRIP FROM LOS ANGELES TO AKRON

The veteran transcontinental Goodyear truck which has already made three trips across the United States, left Los Angeles Monday, June 7th, for the Goodyear factory at Akron, Ohio, to complete its second round trip between the two cities.

The truck is in charge of Howard Sholder, who piloted it on the three former transcontinental journeys, assisted by Herbert Temple, another veteran driver. To date it has traveled nearly 125,000 miles, having been driven continuously since April, 1917, when it made its pioneer trip between Akron, Ohio, and Boston, Mass.

After being used for 15 months on the Akron-Boston express line, hauling manufactured products from the factory to the eastern seaboard and transporting cotton fabric from the company's cotton mill in Connecticut to the factory at Akron, it was selected to make the first trip ever attempted by a big pneumatic-tired truck across the continent, hauling a load of airplane tires for the government authorities at San Francisco.

The run from Boston, Mass., to San Francisco was made in 21 days, which would be good time even for a touring car. After returning to Akron, it was again sent out to the western coast to pilot a government motor truck cavalcade last summer. The truck on this trip hauled the Goodyear Band, whose services were donated to the government for the journey.

For nearly a year the big rubber-tired freighter has been in the west during which time it has traversed the highways of every western state from Texas to Washington, demonstrating the practicability of pneumatic tires for large motor trucks. For the success of this old veteran lies in its pneumatic tire equipment. Its career has proved conclusively that pneumatic tires increase the life of a truck and permit quicker and safer transportation.

It is routed back to Akron over the Santa Fe trail and is expected to cover the 2500-mile journey in less than three weeks. The drivers will attempt to make a continuous run, stopping only for meals and refilling oil and gasoline. This plan was followed on the run made last year and worked out successfully. The truck is equipped with a sleeping compartment just behind the driver's seat, so that the truck operators may sleep and drive in relays of six hours, the relief hours being six and twelve.

To provide against a shortage of gasoline in the desert country of Arizona and New Mexico a 100-gallon drum of gasoline is made a part of the regular truck equipment. June 8, 1920.

GIRLS OF GREECE OUTSHONE BY AMERICAN MAIDENS

PHILADELPHIA, June 11. (United Press.)—For beauty, spice, pep, and a few more things, the girls of Greece had nothing on these "pulchritudinous peaches" in America, so saith George Rousseas, envoy extraordinary and minister plenipotentiary in the United States, who is in the city attending the Greek government exhibition at the commercial museum here.

"The American woman has the most marked and decided type of beauty of all the women in the world," he said. "There are, of course, many beautiful women in Greece, but there is something about the type of the American women which is most appealing."

Greek classic with all the artistic splendor of the past is certainly interpreted in the exhibition. There is a large cast of Venus de Milo, surrounded by casts of pottery and reproductions of classical sculpture which tells of civilizations reaching as far back as Crete, 2400 B. C. The Greece of the present, however, is also prominently displayed, with a splendid series of photographs taken by Frederic Boissonnas. These photographs were taken during pilgrimages over the Greece mainland and through the islands of the Aegean. Many of these photographs are of the mountain, the rocky seacoast, showing glimpses of ancient temples and monasteries, with the charming nature of the Land itself. Indeed, every phase of Greek life, from its very beginning to the present, is represented or in some manner, interpreted.

For persons who like to read while lying down a Californian has patented a book rack to be suspended from the shoulders and waist and an electric light that concentrates its rays on the reading matter.

Sedan Convenience at Low Cost

Overland Sedan Averages 27.6 Miles Per
Gallon in Los Angeles-Yosemite Run

THE OVERLAND SEDAN is proving to owners everywhere the advantages of *closed-car* summer motoring. A permanent top keeps off sun and rain; plate glass windows shut out wind and dust. And now the 355 mile Los Angeles-Yosemite Economy Run shows remarkable fuel average of 27.6 miles per gallon—a striking endorsement of this Sedan's economy and the riding qualities of *Triplex* Springs.

UNSIGHTLY LOTS

J. H. Garnsey, who recently came here from Kansas City, Mo., and bought two fine residence properties on Vine street, one for himself and wife and the other for his son-in-law and daughter, Dr. and Mrs. Wariner, is a most loyal Glendalian and very jealous for his adopted city's good name, protesting vigorously against the unsightly vacant lots covered, as so many of them are, with a thick growth of grass, wild oats and weeds, now dry and withered, not only presenting a most unattractive appearance but a real menace to nearby property, as they are liable at any time to be swept by flames that may communicate to adjoining houses. They are not a very good advertisement to the city as an up-to-date commonwealth, says Mr. Garnsey, and one would really be ashamed to conduct an eastern friend around in such a wilderness. When assured that an ordinance had been passed by the city trustees to compel owners of such lots to clean them up on penalty of having the work done by the city at their expense, Mr. Garnsey expressed his satisfaction.

In this connection it may be stated that every owner of such lot has been mailed a notice conveying the information that such an ordinance has been passed and warning of the consequence if its provisions are ignored. Occupants of property adjoining such lots should be very vigilant every day until cleaning up time comes, looking out for possible fires and not hesitating to summon the fire department at the first sign of danger.

Compare It for Comfort with cars in the same class

See the New Mitchell Six first. Take note of its many over-values. Examine its fine construction. Ride in it for proof of its comfort—its instant response to the throttle's call and its easy, simple manipulation.

Note the many added refinements and outstanding betterments Mitchell offers. Then compare it with other cars in the Mitchell price class.

We suggest that you see this new creation that caused such a sensation at the Chicago and New York Auto Shows—today.

THERE ARE WORSE CRIMES

To the Editor of The Glendale Evening News:

This letter is being sent to you because the writer feels sure that you will publish it and some good results will come to the community in which we live.

Glendale is made up of many wide-awake, hard-thinking and hard-working people. We are all workers in one way or another. Some of us are busy in the home with many an added duty because of lack of labor. Night finds us weary after a day of washing, ironing or cleaning besides the other ordinary daily program we carry out. Some of us are business or professional men and women who spend long hours in the city every day. We come home at night glad that our suburb is not disturbed by the rattle and bang of the city. That is why many of us have chosen suburban life.

Is all of this comfort, yes necessary quiet, to be destroyed by a few unthinking people who because "sleep, nature's gentle nurse," refuses to minister to them, spend their early morning hours gratifying their own needs by hammering, sawing, cutting lawns and making noises generally at 5 a. m.? Is it fair to your neighbors who need their early morning rest? Certainly not. If people live in a community they are obligated to do their part in observing the rights of others. Glendale wants citizens who create harmony within her gates.

June 9, 1920.

While co-operation and harmony should exist among neighbors, and noisy, industrial pursuits should not be engaged in early in the morning for spite purposes, yet we should be slow to brand the early riser as an undesirable citizen. There are people who enjoy good health and a sound sleep of six or seven hours prepares them for an early awakening, and a desire to engage in open manual labor.—Editor.

The largest building permit ever issued in the City of Los Angeles was that for the addition to the Pacific Mutual Life Building on Sixth street, between Olive and Grand avenue this week. The building is to be 150 feet high, which is the limit allowed by ordinance, and the permit is for two and a half million dollars.

CHILDREN'S DAY

Yes, this is happy Children's Day. The little ones have right of way. Grey-beards today cut out that frown.

Just step back yonder and sit down. This day the Savior's own—we greet To post of honor—the front seat, Nor dare you, any one, to say, As once was said, "Send them away."

Hear Him, "Forbid them not," said He,

"But suffer them to come to me."

We bring them, Lord, with glad acclaim,

We're learning them to love Thy name,

We lay them on Thy heart in prayer; Oh, blessed Master, hold them there.

The purpose of our lives shall be, Dear Lord, to train them up for thee.

Temptations spread for children's feet,

These in Thy name, oh may they meet

And overcome, Oh, make them strong

To seek the right and shun the wrong.

A wealth of flowers the chancels grace

And fragrant odors fill the place; But "rosebuds of the nursery" are More beautiful and sweet, by far.

What pleasures to this hour belong, How tender, gentle, sweet, their song;

His praises sung by children's lips All other forms of song eclipse.

Sing on, dear children, sing away And all your life keep Children's Day.

Sing, as the coming years unfold; Hearts full of love will ne'er grow old.

SAMUEL PARKER.

Glendale, Cal.

The whole south slope of the Verdugo Mountains, clear to the summit, is dotted with yuccas in full bloom, the white plumes making a striking appearance amid the green vegetation covering the ground.

TIME TO CALL A HALT

The request of Secretary of State Colby to the commissioners of the District of Columbia for a full report on the burning of the British flag in front of the treasury building by women sympathizing with Ireland is in strict accord with his duty. It must be kept in mind that appeals to reason are one thing, and making a demonstration against one of our allies in the world war, in our national capital, is another. It is time to call a halt upon those who go to the extreme.

W. Hohenzollern is said to hope to become ruler of Germany again. When William hopes, others fear.

The Chicago man caught with 1057 quarts of liquor which he claimed was for his own use seems to have admitted great capacity.

Maxwell Agility

Maxwell lightness is due to the rare and wonderful steels used in the construction of the car and not to the inferiority of materials or cheap construction as is the case with some light cars.

Lightness and agility with no sacrifice of durability was what Maxwell manufacturers sought for and accomplished in the use of rare metals in the construction of the car.

This explains the fact that Maxwell construction cannot keep pace with Maxwell demand.

This is why thousands are willing to wait for Maxwells rather than buy cars that can be delivered at once.

Remember that we're moving soon to our new building just opposite our present headquarters and invite you to visit us in our new home

Sunday Services at the Churches

FIRST METHODIST CHURCH

Corner Kenwood and Wilson. Rev. Clyde Monroe Crist, D. D., Pastor. Sunday School (graded) at 9:30 a. m. Prof. A. W. Tower, Superintendent. The school is growing each Sunday. The "Auto Race" contest is arousing much enthusiasm. "Come and see." At 10:25 the Children's Day Program will be given in the Auditorium and will extend through the regular preaching hour. At 11 o'clock the pastor will baptize infants and small children and will receive into church membership children and adults. The whole morning's program will be one of superior excellence. At 6:45 the Epworth League, Mr. J. B. Clarke, leader, will consider the subject, "Common Mistakes in Daily Living." (Prov. 24:27-34.) The Intermediate League will meet at 6:45. (Ages 12 to 14 years.) Mr. L. C. Leeds, Superintendent. 7 p. m., Brotherhood Round Table. Mr. A. G. Lindly, President. 7:45 p. m., Rev. C. R. Norton, the preacher who started the Glendale church, will preach. The great vested choir will sing. The church is equipped with an acousticon for the benefit of those who hear with difficulty. Come to a "Church that Seems Like Home."

PRESBYTERIAN CHURCH

The Church of the Lighted Cross. The pastor, W. E. Edmonds, will preach both morning and evening. Morning worship at 11 o'clock. Sermon topic, "The Hope of the Redeemer's Return." (The Redeemer's Return Series No. 2.) Evening service, 7:45. (Live Questions Series.) "What of Christian Science?" Why I Left Christian Science. A testimony from an ex-first reader and teacher. Sabbath School, 9:30. H. L. Finlay, Superintendent. New members will be received at the morning service. Others who may desire to unite with the church, can meet the pastor at 10 o'clock tomorrow morning. Elders will be ordained and installed at the same service. Musical program: Morning—Prelude, "Pastorale" (Flagler), Miss Carolyn Bailey, Organist; Quartet, "O, How Amiable" (Dudley Buck), Anna May Galloway, Mrs. Fannie Marple Retts, Mr. Allen McDaniell, Mr. Clifford Riggs; Offertory, "Consolation" (Mendelssohn); Soprano Solo, "I'm a Pilgrim, I'm a Stranger" (Marston), Anna May Galloway; Postlude, "Triumphant March" (Lemaire). TORONTO TO VOTE ON SUMMER TIME

TORONTO, Ont., June 12. (United Press.)—When the time for the annual arguments for and against daylight saving rolls around next spring the confusion of the past few years will be absent as the question as to whether this city will set its clocks ahead one hour for the summer of 1921 will have been decided in a regular municipal election.

The Board of Control has decided that it does not want to shoulder the blame coming from the farmers and others opposed to the daylight saving system and have set January 1st as a day on which the electors may decide for themselves.

THE STAIR-CLIMBER

In New ork the other day a man of 40 years, weighing 200 pounds, ran up the stairs from the sub-basement of the Equitable building, to the platform around the flagpole, 47 stories above, without stopping. He did it in less than nine minutes, and incidentally won \$4,100, the result of a wager. He suffered no ill effects, was not even winded, and went about his daily work as usual after his spectacular dash for the pole. After his day's work he took a Turkish bath to avoid stiffening of his leg muscles, and then went out to a dance.

Not every one cares to dash up 47 flights of stairs, but the physical condition which enabled a middle-aged man to perform such a deed almost anyone might envy. Some one questioned the sprinter as to what methods he took to keep himself in condition so that he could do a thing like this without especial preparation, and it developed that he takes eight or ten minutes physical exercises, no more, every morning of his life, followed by a cold shower. He does not diet, he does not take long hours of athletic training. His ten minutes a day does the work.

This is the regime advocated by Walter Camp, director of physical training in the naval camps. If more people of all ages would take it up, there would be fewer short-breathed, panting specimens of humanity slumping into stodgy middle age who might have kept the spring and liveliness of youth.

WEATHER FORECAST: Partly cloudy tonight. Fair Sunday.

SHOES AND SEA LIONS

If sea lions are as plentiful in the waters of British Columbia as reports indicate, the recommendation of the premier of the province that they be slaughtered and their skins used for making shoes is of more than academic interest. Four men who went hunting for them recently killed 700 in two days. There is probably no likelihood that shoes of sea lion leather will come into general use, but as a cheap substitute for footwear of calfskin and cowhide they will find more favor than the wooden shoes which some of the bolder foes of high prices have been advocating.

But is there not danger that the British Columbia premier's invitation to slaughter the sea lions had to be taken to save the fur seals from extinction. There is one consoling thought, however, in connection with the prospect of a depletion in the supply of sea lions. Their disappearance should result in an increase in the supply of food fish, for the average sea lion eats about 50 pounds of fish a day.

DOUGHBOY DIPLOMACY

Although the Americans were supposed to be taking no sides in the dispute, the Croats and Serbians of Fiume chose to make the arrival of a battalion of Yankee infantry there the occasion of a grand celebration.

Evidently in answer to this demonstration, Italian propagandists liberally plastered the city during the night with banners bearing the words: "O Italia o morte." "Either Italy or death." Everywhere the Americans went for the next few days they were confronted with the slogan.

Then one night some doughboy got busy with a paint brush. The were deeply chagrined to find that nearly all the banners in the central section had been improved during the night and now read:

"O Italia o morte o Hell."—Home Sector.

CAUSE FOR GLOOM

Jim—Why does William Windjammer look so glum?

Tim—He was showing off his alleged French before the family and the French maid mistook it for Russian.—The Home Sector.

"This is one of our large modern department stores." Interested Tourist: "Wonderful. I suppose you can buy everything you want here." "Better than that. You can buy everything you don't want."—Lift.

French interests have obtained possession of a South Pacific island that is believed to contain 10,000,000 tons of high grade phosphates and many million tons of inferior quality.

Both edges of the blades in new shears are sharpened and two sets of finger loops are provided, one for a short cutting stroke with one set of edges and the other for the other set.

The government of Brazil has begun work on extensive systems of reservoirs to enable the residents of its northeastern states to get water in long dry seasons, which frequently occur.

A New York building engineer has demonstrated that large structures can be safely built at seashore towns by laying concrete foundations directly on the sand without sinking piling.

The change to electric power on a railroad in Sweden that is the most northerly in the world has increased the train capacity 40 per cent and the speed 50 per cent over steam operation.

By passing the exhaust manifold through the intake manifold an automobile engineer has given a motor an automatic super-heater that allows a thinner mixture of gasoline in the carburetor.

According to an English scientist's theory, if the radium in the interior of the earth equals in quantity that in the surface rocks, the world will grow hotter in time instead of colder.

Nailess detachable heels have been invented that can be shifted from one to the other of a pair of shoes to prevent uneven wear and heels of different styles can be worn on a single pair.

By crossing African zebu bulls with American pure bred cows a Venezuelan stock raiser has produced hybrid cows that yield more milk than northern cows raised in the tropics and better beef.

For children who sleep in the open air in winter a woman has patented a heavy garment that completely envelops them and is featured by a face mask that leaves only an opening for vision and breathing.

It's all very well to tell people to save. But what's the use of money if you don't spend it?
